

Smart TV Installation Method 1: **Google Play Store** Install

**Thank you for your interest in
SapaTV Channels!**
**Follow the Four steps below to download on
your Smart TV and start Streaming!**

Step 1

Open Google Play Store and Search
for “**Downloader by AFTV News**”

Step 2

Once located, Click **Install** to install it
to your TV.

(This app installs the streaming service
directly on your TV, so there's no need
to download an APK file or transfer
anything manually.)

Step 3

Once installed, open the app, type in **104171** and press **Go**. It will start downloading the streaming app into your device.

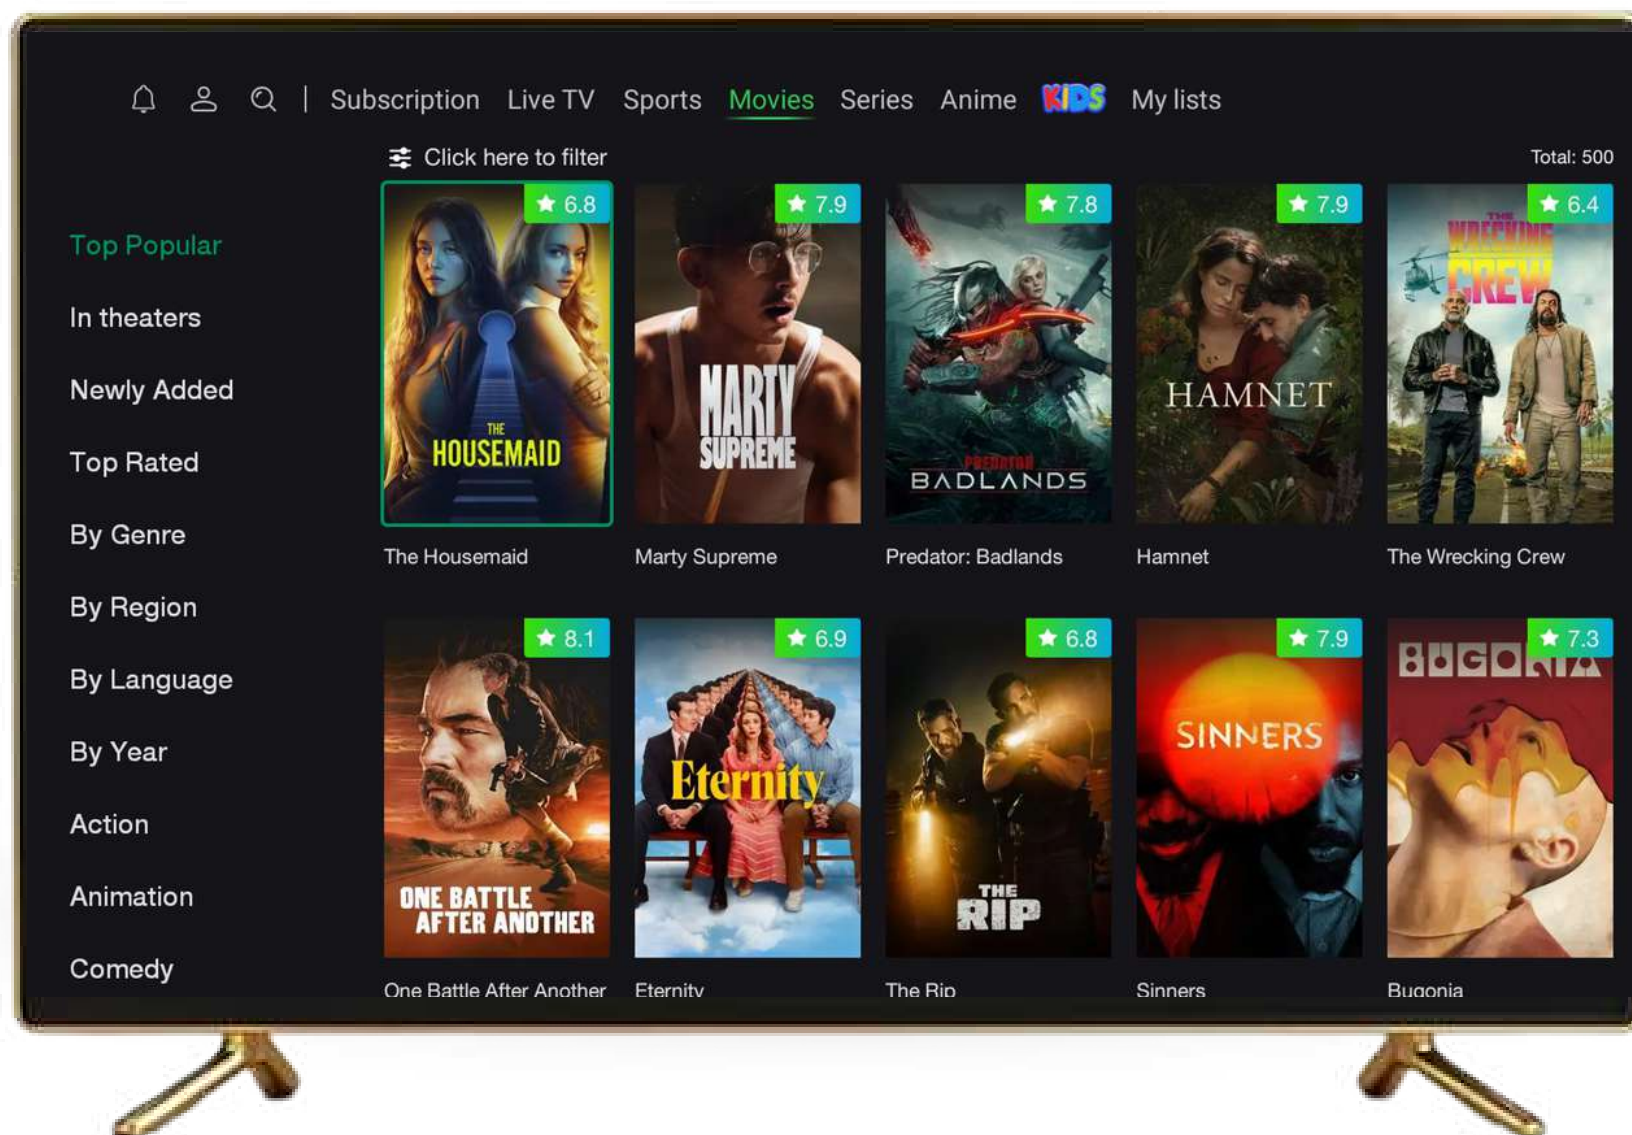

Step 4

Once download is complete, you will be prompted to install the application. Select **Install** to proceed. When installation is finished, select **Open** to launch the application.

**That's it! Start streaming your favorite channels,
live sports, and much more!**
